

Maryland Medicaid Pharmacy Program Quantity Limits

Maryland Medicaid limits the coverage of quantities for certain drugs. Quantity Limits are in place to promote safe and appropriate use of medication and contain costs. The quantity limits are set by using FDA guidelines. Quantity limits include:

- Dose efficiency edits – Limits coverage of prescriptions to one dose per day for drugs that are approved for once-daily dosing.
- Maximum daily dose – A message is sent to the pharmacy if a prescription is less than minimum or higher than the maximum allowed dose.
- Quantity limits over time – Limits coverage of prescriptions to a specific number of units in a defined amount of time.
- Dose optimization – For drugs whose different strengths all have the same or nearly the same unit cost, limits require using the highest possible strength rather than multiple units of lower strengths.

To get prescription coverage for amounts that are over the allowed quantity, a prescriber must request prior authorization by calling 1-800-932-3918 and completing and faxing a PA request form:

<https://mmcp.dhmf.maryland.gov/pap/docs/PA%20form.pdf> Medications that have quantity limits are subject to change. Refer to the table below or to <http://www.Epocrates.com> for the most up-to-date information.

<i>Brand Name</i>	<i>Generic name if manufactured</i>	<i>Limit</i>
Abilify 2mg tablets	aripiprazole	2 tabs/day
Abilify 5mg-30mg tablets	aripiprazole	1 tab/day
Abilify Discmelt 10mg, 15mg tablets	aripiprazole ODT	1 tab/day
